The numbering of the abstracts follows their order in *Dunhuang yiyao wenxian jijiao* 敦煌醫藥文獻輯校 (The Dunhuang medical texts edited and collated). In the course of field work for this project Wang Shumin was able to identify several fragments as belonging to a single manuscript. These have been conflated in the following abstracts, creating gaps in the original numbering. For the readers' convenience we have cross-referenced the abstracts with the library manuscript catalogue numbers:
